BEFORE YOU START

All Flatline Van Co products must be properly assembled and secured before attaching to your vehicle. Improper attachment could result in an automobile accident, and could cause serious bodily injury or death to you or to others involved. You are responsible for assembling and securing Flatline Van Co products to your vehicle, checking the mounting points and attachments prior to use, and regularly inspecting the products for wear and or damage. We always recommend you use a professional to install any aftermarket accessories to your vehicle. If you have no mechanical experience and are not thoroughly familiar with the installation procedures, you must have the product installed by a professional installer or other qualified persons. The responsibility is yours and must be taken seriously for everyone's safety.

SCREW

QTY: 8

1/4-20 X 0.75 FLAT HEAD HEX DRIVE SCREW

QTY: 50

INSTALL

STEP | 01 LAYOUT AND INSTALL PREP

1.1 Identify Mounting Locations: Find the pre-threaded holes highlighted blue in FIG 1 and 2 that you'll use to install your L-Track Kit to FVC Sprinter Bed Brackets.

NOTE - This install will require you to drill clearance holes through your wall panels. Remove them to access your **Bed Brackets**.

NOTE - This product is **exclusively** made for **Flatline Van Company Bed Brackets**.

TOOLS REQUIRED FOR THIS STEP:

FIG 1

FIG 2

TOOLS REQUIRED FOR THIS STEP:

STEP | 02 L-TRACK INSTALL

2.1 Identify L-Track Extrusions: See FIG 3 and 4 for relevant dimensions for determining which L-Tracks are spaced for the Front and Rear Bed Brackets.

NOTE - For install with **Wall Panels**, measure and determine the location of the bottom hole of the bed bracket and transfer the mark to the corresponding location along your **Wall Panel**. Align the **L-Track** with this mark and use it to mark all other holes. Drill the holes slightly oversized for easier alignment and test fit to ensure they match the **Bed Bracket's** threaded holes. Install the **Wall Panels** back on the van before proceeding to the next step.

FIG 3

FIG 4

TOOLS REQUIRED FOR THIS STEP:

STEP | 02 L-TRACK INSTALL

2.2 Position L-Track to Bracket: Position the appropriate L-Track to your **Bed Bracket** and flex it to match the contour of the van's wall.

FIG 5

FIG 6

TOOLS REQUIRED FOR THIS STEP: + SCREWDRIVER

STEP | 02 L-TRACK INSTALL

2.3 Secure L-Track to Bracket: Starting with the **Bottom-Most** mounting hole, secure the L-Track in place using **1/4-20 X 0.75 Flat Head Hex Drive Screws**.

FIG 7

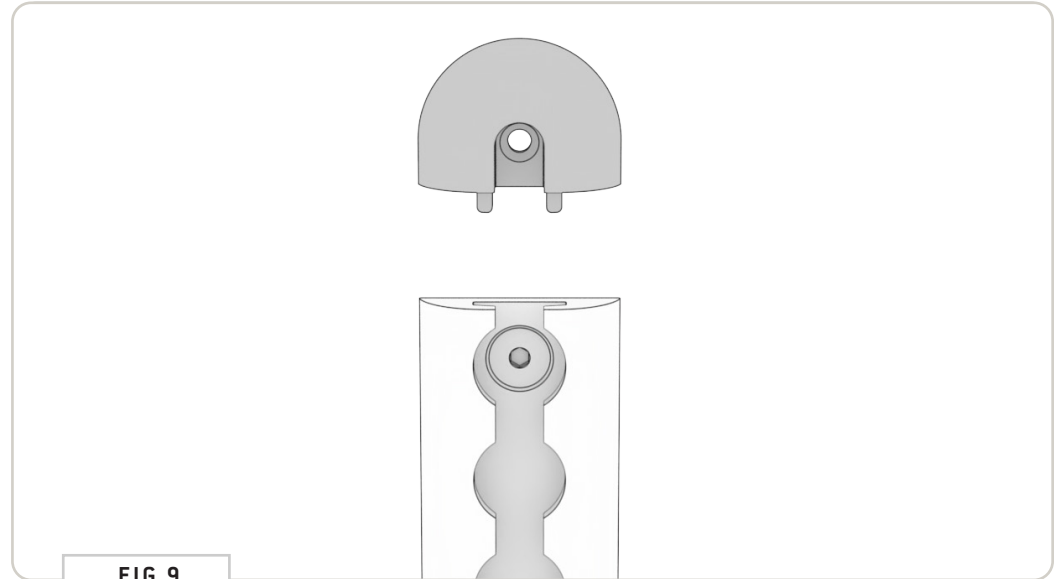

FIG 8

TOOLS REQUIRED FOR THIS STEP: + SCREWDRIVER
+ IMPACT DRIVER

STEP | 02 L-TRACK INSTALL

2.4 Attach End Caps (OPTIONAL): If your application necessitates trimming the **L-Track Extrusion**, we've supplied **End Caps** to use at your discretion. Simply snap it into place in the orientation shown in **FIG 9** and finish by driving a **#8 Screw** into your wall panel (if applicable).
