BEFORE YOU START

All Flatline Van Co products must be properly assembled and secured before attaching to your vehicle. Improper attachment could result in an automobile accident, and could cause serious bodily injury or death to you or to others involved. You are responsible for assembling and securing Flatline Van Co products to your vehicle, checking the mounting points and attachments prior to use, and regularly inspecting the products for wear and or damage. We always recommend you use a professional to install any aftermarket accessories to your vehicle. If you have no mechanical experience and are not thoroughly familiar with the installation procedures, you must have the product installed by a professional installer or other qualified persons. The responsibility is yours and must be taken seriously for everyone's safety.

PACKAGE CONTENTS

SPRINTER VAN PASSENGER FOOT RISER

QTY: 1

INSTALL

STEP | 01 PREP AND INSTALL RISER

This riser is designed for a perfect fit and requires no modification to your van.

1.1 Prepare the Area: Ensure the passenger side floor area in front of the seat base is clean and clear of any debris (**FIG 1**).

NOTE - The *Sprinter Passenger Floor Riser Compartment* is designed to best fit **without** floor mats, but **can** work with *Factory Floor Mats* as well.

1.2 Orient the Riser: Identify the side of the riser with the two protruding magnets (**FIG 2**). This side faces the rear of the van and will sit flush against the passenger seat base.

1.3 Set in Place: Lower the riser into the footwell. Slide it back firmly until the magnets make contact and securely “click” against the front of the seat base (**FIG 3**).

1.4 Check Fit: That's it! Your riser is now securely in place. The high-strength magnets prevent it from sliding forward while driving or braking.

INSTALL

STEP | 02 OPERATION AND USES

Your new riser doubles as a convenient, hidden storage box.

To Open: Simply lift the lid using the latch along the front edge of the riser (**FIG 5**).

To Close: Lower the lid until it sits flush and secure (**FIG 6**).

NOTE - The storage compartment is perfect for stowing recovery gear, tools, shoes, or other essentials. See the dimensional graphics in **FIG 7** for the overall size of the riser and the inner compartment.
